ABOUT BIOWAY...

The Bioway™ team is a group of passionate individuals on a mission to improve the state of the environment. Having seen firsthand the amount of plastic waste generated by the eCommerce industry, we decided to create leading, revolutionary and customised packaging solutions for the new eco-nomy – a Circular Economy in which generating waste is not an option and the earth's resources are not treated as infinite.

The Bioway™ team believes that as a society we have to make a fundamental shift in the way we value resources and move from a 'linear economy' (make, use, dispose) to a 'circular' one.

We design market-leading, innovative products that come as close to this ideal as possible – waste products are used as raw materials, minimal waste (and minimal pollution) is generated in production.

This is the Bioway™.
