

POLYPROPYLENE (PP) COFFEE CUP LIDS

WE'VE MADE THE
SWITCH!

Our Plastic Coffee Cup Lids have moved from Polystyrene (PS) to Polypropylene (PP)!

PP Lids are much easier to Recycle, more flexible and heat resistant, than PS.

Pinnacle's New PP lids are recyclable as they are made from 100% PP and widely used in many areas and a better option for the environment.

PP Lids from Pinnacle will ensure a better fit and are available in Travel or Sipper Lids in either Black or White. Perfectly matched with our Truly Eco Range of Coffee Cups.

WHAT DOES IT MEAN?

EASIER TO RECYCLE

MORE FLEXIBLE

MORE HEAT RESISTANT
